Section B – Key information on the Issuer

Who is the issuer of the securities?

Domicile, legal form, LEI, legislation and country of incorporation

The Company was incorporated and registered in England and Wales on 14 August 2015 as a private company limited by shares under the Companies Act 2006 with registered number 9734101, under the name TP Advancr Limited. The Company changed its name to Advancr Leasing Limited on 15 February 2016 and re-registered as a public limited company and changed its name to Advancr Leasing plc on 5 October 2016. The Company subsequently changed its name to Triple Point Advancr Leasing plc on 19 October 2016. The Legal Entity Identifier (LEI) of the Company is 213800QYGGGQ4NU23915. The principal legislation under which the Company operates is the Companies Act 2006.

Principal activities

In 2015, The Company was established as a dedicated non-bank SME lending business, to address the financing needs of UK SMEs. The Company follows a strategy based on Triple Point Investments Management LLP's ("**TPIM**") highly rated "Navigator Strategy". The Company will continue to focus on providing Essential Funding to SMEs to enable them to finance expansion, or to purchase business critical assets. The Company's principal and intended business activities as at the date of the Base Prospectus are set out below:

- Leasing - The Company provides equipment finance in the form of leasing, rental, contract hire and hire purchase. The Company purchases an asset for use by a customer who undertakes to make periodic payments. In the event that they fail to do so the asset may be repossessed, decommissioned or sold.
- Secured Lending - There are two activities that fall within this category: (a) Senior Secured Loans; and (b) Project Finance. The Company provides senior secured finance in order to fund growth, expansion, assets (such as; plant, equipment, etc), acquisitions, projects and transactions such as management buyouts ("MBOs") and management buy-ins ("MBIs"), etc. In the event of default, the assets of the borrower may be claimed by the Company and sold in order to repay the loan.
- Secured Property Finance - The Company provides short and long term finance with a low loan-to-value ("LTV") ratio and strong security over fixed assets, typically real estate or plant, by way of a charge, which can be enforced by the Company in the event of a default to claim the asset.

Working capital loans - The Company provides funding to small businesses in the form of short term loans (which may be unsecured). SMEs use these loans as a supplement or replacement for an overdraft facility or traditional bank finance. Many SMEs use this facility to expand their commercial capabilities or to purchase stock.

Receivables finance - The Company provides finance between a company and its customers in respect of amounts due for goods, or a service supplied. The Company may seek to further protect the loan by purchasing (at a discount) the invoices, purchase orders, agreements or other receivables that are being funded.

Major shareholders

The Company is a direct wholly owned subsidiary of Triple Point Holdings Limited, a limited company registered in England and Wales with

registered number 05304338. Triple Point Holdings Limited is a wholly owned subsidiary of Triple Point LLP, a limited liability partnership with registered number OC310549. Triple Point LLP has 6 designated members, who, between them hold 82% of the voting rights. Triple Point LLP and Triple Point Holdings Limited are also designated members of TPIM.

Key managing directors

Neil Richards, James Cranmer, Chris Lake are executive directors. Peter Alderson is a non-executive director.

Statutory auditors

The statutory auditors are Saffery Champness LLP, 71 Queen Victoria Street, London, EC4V 4BE.

What are the key risks that are specific to the issuer?

- Bondholders have limited recourse to the Company and are reliant upon the recoverability by the Company of loans/lease finance payments. If the SMEs that lease assets or borrow money from the Company fail to pay for the assets or the loans, this would have a material impact on the financial position of the Company, and consequently, the Company's ability to pay interest and capital to Bondholders could be materially affected.
- [It is possible that, in light of the spread of coronavirus (Covid-19) which was declared a global pandemic on 11 March 2020, borrowers may struggle to meet their repayments. However, the Company is of the view that a [significant] number of its borrowers will be able to benefit from various government initiatives which are available to provide financial support to businesses. The position remains uncertain but provided that the government support is delivered, the Company's borrowers will be able to take advantage of it and should be in a position to meet their repayments. In the event that the Company's borrowers are not able to obtain the government support, or are unable to obtain such support in time for making its repayments to the Company, resulting in repayments not being met, this could have an adverse effect on the Company's ability to pay interest and/or capital to Bondholders.]¹
- Investors will not become shareholders or have any ownership stake in the Company. Investing in Advancr Bonds involves the risk of the Company becoming insolvent. Should this happen Bondholders may lose some or all of their initial investment and lose some or all of any outstanding or future expected interest payments.
- If the Company has no security in respect of the loan or finance any secured creditors of the borrower will have priority over the borrower's assets and the Company will rank equally with all the borrower's other unsecured creditors. This will mean that if the borrower's assets are insufficient to repay the secured creditors, the Company will receive nothing. Whilst over 80% of the leases and loans are secured in some manner over the assets of borrowers, the Company does not take security over the assets of all of the companies in which it lends to or funds.
- Each of the activities that are undertaken by the Company is important to the Company but the Company cannot give any indication as to what proportion of the Company's activities will be constituted by any particular activity at any given time, including those activities where a security may be taken over the assets of an underlying company. The activities of the Company may change as the Directors seek new opportunities which would maximise benefits to Bondholders and may be replaced and/or supplemented by new activities.
- Any change in the composition of the Company's management team could impact on the ability of the Company to continue to execute its business strategy successfully and, if this affected the Company's revenue, this could impact on the Company's ability to make payments to Bondholders.

Section C – Key information on the securities

What are the main features of the securities?

Type and class of the securities to be issued

Under this series, the following 2020 Advancr Bonds will be issued: £21,128.17 5.12% Secured Bonds due 11/09/2020. The 2020 Advancr Bonds are transferable, secured, fixed rate, debt instruments and are to be issued by the Company under a programme (the "**2020 Programme**") under which the Company will issue 2020 Advancr Bonds during the 12 month period from 27 April 2020.

Currency, denomination, par value, number of securities issued and term of the securities

The currency of the 2020 Advancr Bonds is pounds sterling. The denomination of the 2020 Advancr Bonds is £0.01 subject to a minimum subscription per Application of £1,000.

The 2020 Advancr Bonds issued under this series pursuant to these final terms shall have a maturity date of 11/09/2021, or such earlier date in accordance with the terms of the Advancr Bond Deed.

Rights attached to the securities

The 2020 Advancr Bonds are transferable, secured, fixed rate, debt instruments. Bonds issued pursuant to this series have an interest rate of 5.12% which is payable 11/09/2021, or such earlier date in accordance with the terms of the Advancr Bond Deed.

Relative seniority of the securities issued in the issuer's capital structure in the event of insolvency

The 2020 Advancr Bonds (including the Bonds to be issued under this series pursuant to these final terms) will be secured by the Security Document which will be held by the Security Trustee for the Security Beneficiaries on the terms of the Security Trust Deed. Each 2020 Advancr Bond is issued on condition that each 2020 Bondholder (and any person claiming through or under them) is taken to have notice of the Security Trust Deed, to consent to the appointment of the Security Trustee pursuant to the terms of the Security Trust Deed and to be bound by the terms of the Security Trust Deed and the Security Document (including all restrictions and limitations specified in and/or arising under

¹ May not be required for future final terms later in 2020

or pursuant to either the Security Trust Deed or the Security Document). In the event that the Company fails to pay to the 2020 Bondholders amounts due under the 2020 Advancr Bonds or if an "Event of Default" as set out in the Advancr Bond Deed, such as the winding up of the Company (see "Events of Default" below), under the terms of the Security Trust Deed, the Security Trustee is able, as trustee for the Bondholders, to enforce the Security Document against the Company, without any further action having to be undertaken by Bondholders (including the 2020 Bondholders), so that the proceeds from that enforcement to which Bondholders are entitled can be distributed to Bondholders. The 2019 Advancr Bonds, 2018 Advancr Bonds, 2017 Advancr Bonds and 2016 Advancr Bonds are also secured by the Security Document and will rank equally under the Security Document with the Advancr Bonds to be issued pursuant to the Base Prospectus (including the bonds issued pursuant to these Final Terms).

Pursuant to the Security Document, which was entered into between the Company and the Security Trustee on 29 November 2016, as amended on 3 April 2017, the Company has agreed with the Security Trustee to pay to the Security Trustee, as trustee for the Bondholders (including the 2020 Bondholders), on demand all monies owing by the Company to the Bondholders (the "**Secured Obligations**") as and when they are due for payment. The Security Document is governed by and shall be construed in accordance with English law.

The Company has charged to the Security Trustee as trustee for the Bondholders (including the 2020 Bondholders) by way of a fixed charge as security for the payment and discharge of the amounts due to Bondholders the following assets, both present and future, from time to time owned by the Company:

- (a) all freehold and leasehold property of the Company and interests in land and property attached to save to the extent that the Company is prohibited from doing so as a result of the terms of any agreement or contract governing such interests;
- (b) the goodwill of the Company (that is the established reputation of the Company) now or at any time in the future in existence; and
- (c) those insurance policies in favour of the Company that are not effectively assigned to the Security Trustee pursuant to the terms of the Security Document.

The Company charges to the Security Trustee as trustee for the Bondholders (including the 2020 Bondholders) by way of a floating charge as security for the payment and discharge of the Secured Obligations, its undertaking and all its property, assets and rights, both present and future, but excluding any property or assets from time to time charged under the fixed charge or those insurance policies that have been assigned to the Security Trustee as detailed in the paragraph below. As further security for the payment of the Secured Obligations, the Company will assign (i.e. transfer) to the Security Trustee as trustee for the Bondholders (including the 2020 Bondholders) all its rights in those insurance policies in which the Company has an interest ("**Insurances**"), provided that on payment or discharge in full of the Secured Obligations the Security Trustee will, at the request and cost of the Company, transfer the Insurances back to the Company.

Whilst the Security Document, as stated above, is expressed to create both a Fixed Charge and a Floating Charge, it is anticipated that the assets of the Company will not fall within any of the Fixed Charge categories mentioned above but, instead, will fall within the Floating Charge.

On a winding up of the Company, distributions would be made to its creditors, which would include the 2020 Bondholders, the 2019 Bondholders, the 2018 Bondholders, the 2017 Bondholders and the 2016 Bondholders, in accordance with a statutory order of priority. The expected ranking of the Advancr Bonds (including the 2020 Advancr Bonds) compared with other creditors will be as set out in the following table. A fixed charge over the assets of the Company in favour of Bondholders will only apply in limited circumstances. **Whilst there is a fixed charge in favour of Bondholders under the Security Document, it is not expected that under the Security Document any material assets of the Company will be the subject of a fixed charge (i.e. the Company does not currently nor does it intend or expect to own any freehold or leasehold properties). However, the Company has increased its secured lending since operation, with a portfolio of leases and loans of which over 80% (as at 31 December 2019) are secured against underlying assets of the borrower entities. The Company may therefore become a recipient of certain assets or property which is capable of becoming subject to the fixed charge under the Security Document in the event of the Company enforcing (where applicable) any security it has over a Borrower where a Borrower is unable to meet its secured loan obligation. The Company, in those circumstances, would be entitled to claim possession of the assets or property until they are sold to cover the debt owed, the proceeds of which Bondholders may benefit from. The Company does not hold fixed assets in the ordinary course of its business and in the unusual event that the Company came into possession of fixed assets as a result of the enforcement of any security, it would not be increasing the pool of assets overall. Where the Company takes ownership of any such fixed assets as a result of enforcing its security against a Borrower, whilst the level of fixed assets belonging to the Company might increase, the loans and leases which are the subject of the floating charge would reduce (as those loans and leases would then be in default).**

Bondholders have limited recourse to the Company and are reliant upon the recoverability of loans/lease finance payments. Those leases and loans form the assets of the Company that will be charged by way of a floating charge (which is expected to be the main security 2020 Bondholders will benefit from) A floating charge does not restrict the ability of the Company to deal with the assets (i.e. the loans) which are subject to the floating charge. Where there is an Event of Default and the Security Trustee enforces the security, the floating charge will "crystallise", meaning that it will convert into a fixed charge over the relevant assets (i.e. the loans) with such proceeds being used in respect of the payment and discharge of the interest and principal under the 2020 Advancr Bonds.

On a winding up of the Company, the Bondholders (including the 2020 Bondholders) would rank in priority, with regards to the proceeds from those assets, behind the expenses of the liquidation and the proceeds due to any preferential creditors, as highlighted in the table below.

Ranking	Type of Obligation	Example of Obligation
---------	--------------------	-----------------------

First	Expenses of the liquidation	Currently none
Second	Proceeds of fixed charge assets	The assets (if any) of the Company secured by the fixed charge created under the Security Document (which is only likely to apply in the very limited circumstances described in the Base Prospectus, for the benefit of the Bondholders (including the 2020 Bondholders))
Third	Preferential creditors	Currently none
Fourth	Proceeds of floating charge assets	The assets of the Company secured by the floating charge created under the Security Document (for the benefit of the Bondholders (including the 2020 Bondholders))
Fifth	Unsecured creditors	Previously issued Advancr bonds that have not been secured over the assets of the Company
Sixth	Shareholders of the Company	Requirement to distribute to Triple Point Holdings Limited as the shareholder of the Company

Restrictions on the free transferability of the securities

Not applicable. There are no restrictions on the free transferability of the 2020 Advancr Bonds. A charge is payable to TPIM in respect of transfers made on the Website.

Where will the securities be traded?

The 2020 Advancr Bonds are not listed on a regulated market or other equivalent markets and no application will be made for the 2020 Advancr Bonds to be so listed.

What are the key risks that are specific to the securities?

- If the Security Document is enforced by the Security Trustee upon an Event of Default, the 2020 Bondholders may not receive all amounts due.
- It is not expected that under the Security Document any material assets of the Company will be the subject of a fixed charge (i.e. the Company does not currently nor does it intend to own any freehold or leasehold properties and as the Company has a limited trading record the value of its goodwill is not likely to be significant) but that the assets of the Company will be charged by way of a floating charge.
- The 2020 Advancr Bonds are not protected by the Financial Services Compensation Scheme. Therefore, if the Company were to become insolvent or go out of business, 2020 Bondholders may lose all or part of their investment in the 2020 Advancr Bonds and no government or other body would be required to compensate them for such loss.
- No application has been, or will be, made to any recognised investment exchange for the listing of the 2020 Advancr Bonds and so there will be no ready market in which the 2020 Advancr Bonds may be sold which may, therefore, make them difficult to sell.
- The Company has the right to repay the 2020 Advancr Bonds early to allow the Company to wind up its business if that was preferable to carrying on and if this were to happen the length of an investment in the 2020 Advancr Bonds could be materially shortened.
- 2020 Advancr Bonds pay a fixed rate of Interest and there is a risk that a fixed rate will become less attractive if interest rates available elsewhere go up. Similarly, high inflation could adversely impact the real (inflation-adjusted) return of to a 2020 Bondholder.
- In accordance with the terms of the Advancr Bond Deed, Bondholder Resolutions are passed if those Bondholders (including 2020 Bondholders, 2019 Bondholders, 2018 Bondholders, 2017 Bondholders and 2016 Bondholders) voting in favour of the Bondholder Resolution hold a majority of Advancr Bonds held by those Bondholders voting on the Bondholder Resolution. This may mean that a Bondholder Resolution is passed against the wishes of a 2020 Bondholder.

Section D - Key information on the offer of securities to the public and the admission to trading on a regulated market

Under which conditions and timetable can I invest in this security?

Expenses of the issue

The Company will not charge an Investor any expenses relating to a direct application to purchase 2020 Advancr Bonds in this series. Charges may be payable by 2020 Bondholders to a Financial Advisor who has advised a 2020 Bondholder in relation to a decision to invest in 2020 Advancr Bonds. By submitting an Application, a 2020 Bondholder authorises TPIM to deduct such charges from any payment made to subscribe for 2020 Advancr Bonds and to use the amount so deducted to pay such charges to the relevant Financial Advisor. Details of such charges will be confirmed with the 2020 Bondholders in advance of any subscription for 2020 Advancr Bonds.

The Company is able to offer to FCA regulated advisors and execution only brokers an initial commission for unadvised introductions which will be paid for by TPIM and will not be a cost for the 2020 Bondholders.

The Company is also able to facilitate adviser charging, in respect of charges that an Investor agrees to pay a Financial Advisor, via the Triple Point Advancr advisor platform.
